- 9. Defendant City, is an agency that provides water, recycled water, and sewer service in San Diego County. Its headquarters are in San Diego County.
- Defendant City provides water service to Plaintiffs Patz and Chesner. (See attached 10. Exhibits "A" and "B" and incorporated herein a sample of Defendant City of San Diego's water bills to Plaintiffs.)
- 11. Plaintiffs are currently unaware of the true names and capacities of the persons sued herein as Does 1-200, inclusive, and therefore sues these defendants by such fictitious names. Plaintiffs will amend this Fifth Amended Complaint to allege these defendants' true names and capacities when ascertained.
- 12. Unless otherwise alleged, at all relevant times, each Defendant was the agent, servant, employee, partner, joint venturer, franchisee, parent, subsidiary, and/or alter ego of the other, and at all times acted within the course and scope of such agency, service, employment, partnership, joint venture, franchise and/or relationship. In addition, each fictitiously-named Defendant is an aider and abettor, joint tortfeasor, agent, employee, or affiliate of Defendant City; each is legally responsible for the unlawful conduct herein alleged; and each may be served with process within the state of California.
- 13. The acts or omissions of Defendant, as herein described, were performed by officers, managing agents, directors, employees, and/or agents who were responsible for all actions alleged herein and who were acting on behalf of Defendant. These individuals had advance knowledge and notice of the action and conduct of such persons and their actions and conduct were ratified, authorized, and approved by the managing agents, officers, attorneys, employees, agents and/or directors of Defendant.
- 14. Plaintiff Daniel Patz presented a government tort claim to Defendant City of San Diego, Public Utilities Department, on August 21, 2015. Defendant rejected Plaintiff Daniel Patz's claim expressly and/or by their failure to timely respond.
- 15. Plaintiff Joan Mann Chesner presented a government tort claim to Defendant City of San Diego, Public Utilities Department, on April 2, 2018. Defendant rejected Plaintiff Joan Mann Chesner's claim expressly and/or by their failure to timely respond.

- 16. Plaintiffs are serving a copy of this Fifth Amended Complaint on the Attorney General because this suit questions the constitutionality of Defendant's water rates and/or fees. (See California Rules of Court 8.29(c)).
- 17. This action is timely commenced. Defendant's continued imposition and collection of water delivery "charges" or "fees" is an ongoing violation, upon which the statutory limitations period begins anew with each monthly collection. (*Howard Jarvis Taxpayers Ass'n v. City of La Habra* (2001) 25 Cal.4th 809, 821.)

SUBSTANTIVE ALLEGATIONS

- A. The California Constitution Forbids Fees And Charges That Exceed The Proportional Cost of Water Service Attributable To A Given Parcel.
- 18. In November 1996, the California electorate adopted Proposition 218, which added articles XIII C and XIII D to the California Constitution. Proposition 218 "protects taxpayers by limiting the methods by which local governments exact revenue from taxpayers without their consent." (Howard Jarvis Taxpayers Ass'n v. City of Riverside (1999) 73 Cal.App.4th 679, 683 (citation omitted).) To this end, article XIII C requires voter approval for certain local tax levies, and article XIII D forbids certain assessments and property-related fees and charges.
- 19. Relevant here, article XIII D, section 6, subdivision (b)(3) provides: "The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel." Relatedly, section 6, subdivision (b)(1) provides: "Revenues derived from the fee or charge shall not exceed the funds required to provide the property related service."
- 20. Water service is a property-related service for purposes of article XIII D. In fact, "all charges for water delivery' incurred after a water connection is made 'are charges for a property-related service, whether the charge is calculated on the basis of consumption or is imposed as a fixed monthly fee." (City of Palmdale v. Palmdale Water Dist. (2011) 198 Cal.App.4th 926, 934 (Palmdale) (quoting Bighorn-Desert View Water Agency v. Verjil (2006) 39 Cal.4th 205, 217).)
- 21. This means that, under article XIII D, fees or charges for water service cannot exceed the proportional cost of service attributable to a given parcel. (See Art. XIII D, § 6, subd.

- (b)(3).) To comply with this constitutional mandate, public water agencies must correlate "prices with the actual cost of providing water." (*Capistrano Taxpayers Assn.*, *Inc. v. City of San Juan Capistrano* (2015) 235 Cal.App.4th 1493, 1506.) "[W]ater rates that exceed the cost of service operate as a tax[.]" (*Id.* at p. 515.) Public water agencies are constitutionally barred from imposing such taxes unilaterally, meaning, without voter approval. (*Id.*)
- 22. "In any legal action contesting the validity of a fee or charge, the burden shall be on the agency to demonstrate compliance with this article." (Art. XIII D, § 6, subd. (b)(5).) Therefore, in order to establish that their rate structure complies with article XIII D, Defendant must present substantial evidence that withstands independent court review. (Silicon Valley Taxpayers' Assn., Inc. v. Santa Clara County Open Space Auth. (2008) 44 Cal.4th 431, 448.)

B. Defendant Imposes Disproportionate Fees For Water Service.

- 23. Defendant is public water agency subject to Proposition 218, and thus is prohibited from imposing above-cost rates unilaterally.
- 24. Defendant's water rates are not anchored to the actual cost of water service to a given parcel, as required by California law.

Defendant City of San Diego

- 25. Defendant City of San Diego owns and operates two self-supporting enterprises for water and wastewater. These utility systems provide service to 1.4 million residential, commercial, industrial, and wholesale customers. Because Defendant operates as a public water agency subject to Proposition 218, it is prohibited from imposing above-cost rates unilaterally.
- 26. Defendant adopted new water rate structures for water and wastewater in or around 2007, 2013, and 2016 in accordance with recommendations made by consulting firms hired to provide cost-of-service analyses. Defendant adopted rate structures using tiered rates which are not anchored to the actual cost of water service to a particular parcel, as required by California law.
- 27. The rate structure Defendant adopted pursuant to the 2007, 2013, and 2015 cost-of-service studies utilize a tiered water-rate structure with different tiers for different classes of customers. These rates include both a fixed service charge and a per-unit charge. The per-unit charge is loosely based on units of water used but does not track the proportionate cost of water

service attributable to each parcel. For the per-unit charge, in each tier, the customer class pays a progressively higher charge per unit of water used.

- 28. The rate structures Defendant employed during these years and continues to employ to date, based on the 2007, 2013, and 2015 cost-of-service studies, respectively, do not reflect the true costs of supplying water or wastewater to various tiers of usage for any given parcel. Instead, the above-cost-of-service pricing for tiers of water service imposed by Defendant City of San Diego violates the California Constitution, specifically, Proposition 218.
- Halla Razak, director of Public Utilities at City of San Diego, in an interview with The San Diego Union Tribune described the 2016 ratemaking as "bringing [] back to compliance" water rates that were *not* anchored to the actual cost of service to a given parcel, as required by the Constitution: "The fear is that the rate that we've had is really not connected to the cost of service study"; "[s]o we are vulnerable there, . . ." Morgan Cook, "City proposes water rate hikes," The San Diego Tribune, July 20, 2015, *available at* http://www.sandiegouniontribune.com/news/2015/jul/20/rate-hikes/. None of these water and wastewater ratemakings, however, are in compliance with the Constitution.
- 30. By way of example, in 2015, residential rates varied as follows: Tier 1 is increased by approximately 12% to calculate Tier 2; Tier 2 is increased by approximately 43% to calculate Tier 3; and Tier 3 is increased by approximately 40% to calculate Tier 4. The differences in tier rates are arbitrary, meaning, they do not correspond to the actual cost of water service. That same year, the rate for commercial customers was \$4.47 per hundred cubic feet of water; the rate for multi-family domestic customers was \$4.65 per hundred cubic feet of water; and the rate for temporary construction and irrigation customers was \$4.947 per hundred cubic feet of water. These differences, too, are arbitrary.
- 31. Defendant may have instituted these disproportionate rate structures to reward conservation and penalize consumption. Defendant, however, lacks the constitutional authority to adopt conservation policies that depart from article XIII D's clear mandate that water conservation is achieved by pricing that reflects the actual cost of service for incremental levels of water usage to a given parcel. (*See Palmdale*, *supra*, 198 Cal.App.4th at pp. 936–937.)

CLASS ACTION ALLEGATIONS

32. Plaintiffs bring this action on behalf of themselves and all others similarly situated as members of a proposed class ("Class") initially defined as:

> All single-family residential customers of the City of San Diego who received water service after July 14, 2011.

- 33. Excluded from the Class are Defendant's employees, officers, directors, legal representatives, successors, assigns; any entities in which Defendant may have a controlling interest; and any person who may timely and validly request exclusion from the Class, as authorized by law.
- 34. This action has been brought as a class action, and may properly be maintained, pursuant to the provisions of the Code of Civil Procedure section 382, Civil Code section 1781, and Rule 23 of the Federal Rules of Civil Procedure and case law thereunder, to which trial courts have been directed by the California Supreme Court to look for guidance.
- 35. Numerosity: While the precise number of Class members is not yet known, the number of customers Defendant services demonstrates that the Class is so numerous that individual joinder of all members would be impractical, as Defendant services thousands of residents in the San Diego area. Although the precise number of Class members, their identities, and addresses are unknown to Plaintiffs, they can be readily ascertained from Defendant's records. Class members may be notified of the pendency of this action by mail, supplemented (if appropriate) by published notice.
- 36. Existence and Predominance of Common Questions of Fact and Law: There is a well-defined community of interest in common questions of law and fact which exists as to all members of the Class. These questions predominate over questions affecting individual Class members. These common legal and factual questions include whether:
 - a. Defendant's fees or charges for water exceed the proportional cost of the service attributable to the Plaintiff Class's individual parcels;
 - b. Defendant calculates the actual costs of water service at various levels of usage;

- c. Defendant learned that its fees or charges for water are not proportional to the cost of service attributable to the Plaintiff Class's individual parcels;
- d. Defendant's water rates, which exceed the cost of service, operate as a tax;
- e. Defendant's above-cost-of-service pricing violates article XIII D of the California Constitution.
- f. Defendant has breached mandatory duties imposed upon it by the California Constitution.
- g. Plaintiffs and Class members are entitled to damages, restitution, or disgorgement.
- h. Plaintiffs and Class members are entitled to declaratory and injunctive relief.
- i. Plaintiffs and Class Members are entitled to a writ of mandate.
- 37. <u>Typicality of Claims</u>: Plaintiffs' claims are typical of the claims of the Class. Plaintiffs, like other Class members, have been assessed water rates that exceed the cost of service due to Defendant's disproportionate pricing scheme. Plaintiffs' and Class members' claims therefore arise from a common course of conduct by Defendant and are based on the same legal theories.
- 38. Adequacy of Representation: Plaintiffs are adequate representatives of the Class, because their interests do not conflict with the interests of the Class. Also, Plaintiffs have retained counsel competent and experienced in complex class action litigation. The interests of the Class will thus be fairly and adequately protected by Plaintiffs and their counsel.
- 39. <u>Superiority</u>: A class action is superior to other available means for the fair and efficient adjudication of this dispute. The constitutional violations suffered by Class members are significant and widespread, yet it is economically impractical for members of the Class to prosecute individual actions raising identical constitutional violations. Without the class action device, it would be virtually impossible for Class members individually to obtain effective redress for these constitutional violations.
- 40. Furthermore, even if the Class members themselves could afford to individually litigate their claims, the court system could not. Individualized litigation would present a risk of inconsistent or contradictory judgments and involve thousands of separate actions, which would

increase the delay and expense to all parties and to the court system. By contrast, the class action device presents fewer management difficulties, requiring only a single adjudication of the complex legal and factual issues in this dispute, thereby providing the benefits of economy of scale, and comprehensive supervision by a single court.

41. Plaintiffs and their counsel know of no difficulties they will encounter in the management of this case which would preclude it from being maintained as a class action.

COUNT ONE

(Declaratory Relief for Violation of Article XIII D of the California Constitution)

- 42. Plaintiffs incorporate by reference and reallege all paragraphs previously alleged herein.
- 43. Plaintiffs seek a declaration as to the respective rights and obligations of the parties. An actual controversy has arisen between Plaintiffs (and the Class) and Defendant, because Defendant's pricing for water service exceeds the proportional cost of the service attributable to their respective parcels. Plaintiffs thus seek a declaration for themselves and the Class that Defendant's overall water rate structure operates as an illegal tax, fee, or charge in violation of article XIII D of the California Constitution.
- 44. Specifically, Plaintiffs seek a declaration that the revenues Defendant derives from its water rates exceed the funds required to provide the property related service, in violation of article XIII D, section 6, subdivision (b)(l). Defendant's above-cost pricing scheme "all but assures the revenues [Defendant] received from customers in the higher tiers is more than is required to cover [Defendant's] costs of service." (*Palmdale*, *supra*, 198 Cal.App.4th at p. 934.)
- 45. In addition, Plaintiffs seek a declaration that Defendant's water rate structure is used for purposes other than that for which the fee or charge was imposed and therefore violates article XIII D, section 6, subdivision (b)(2).
- 46. Lastly, Plaintiffs seek a declaration that Defendant's water rates exceed "the proportional cost of the service attributable to the parcel," and therefore violates article XIII D, section 6, subdivision (b)(3).

1	C.	An order permanently enjoy	oining Defendant from engaging in improper activities and
2	practices, as o	described herein;	
3	D.	Actual and compensatory	damages pursuant to all applicable laws;
4	E.	Restitution, disgorgement	, or reimbursement to the extent permitted by all applicable
5	laws;		
6	F.	A judgment, pursuant to C	Code of Civil Procedure section 1060, finding and declaring
7	that Defendar	nt's water rate structure viol	lates article XIII D of the California Constitution, and that
8	Defendant ha	s failed to comply with sec	tions 6(b)(1), 6(b)(2), and 6(b)(3) of article XIII D of the
9	California Co		
10	G.	A writ of mandate orderin	g Defendant to comply with all mandatory duties imposed
11	by article XII	II D of the California Cons	titution, as described above, including the duty to anchor
12	rates to the ac	ctual cost of water service to	a given parcel;
13	Н.	Pre-judgment and post-judgment	dgment interest;
14	I.	Attorneys' fees and costs	of suit, including expert witness fees; and
15	J.	Such other and further leg	gal and equitable relief as this Court may deem proper.
16		DEMA	ND FOR JURY TRIAL
17	Plaint	iffs and the Class hereby de	emand a trial by jury in this action.

IMPORTANT MESSAGES

IMPORTANT INFORMATION - Minor changes made to our meter reading and billing schedule may have increased the number of days in this billing period. If your billing period is greater than 65 days, your base fees have been prorated according to the number of days in the billing period. In addition, for Single Family Residential customers, the amount of usage associated with each of the lowest price tiers (tiers 1-3) have been prorated upwards to eliminate any negative impacts associated with this one-time schedule change.
